Our Brothers Independence Run

Hares: Embryo

Fang

This week's run was appointed at Moore's Park off Moggill Road. When we arrived the hares were lighting two fires – one to cook the sizzlers and another to keep the Hashmen warm.

The circle was formed and the single Sydney guest was introduced and we were warned to look after him. However I do believe he chose not to run but rather help the hares cook. The hares explained the run and even at this early stage we were very confused so a Far Cup was anticipated. And we were off..... and we were off through the park. After about 50m we heard shouts of on-back...on-back, so we turned around and ran back down the hill only to be told that we could continue and again were sent back the way we had just came.

Up through the park we went and it was at about this stage I realized that I do not have a clue where I was, although I was not too worried as it was someone else's turn to compile a run report. Anyway out we came from the bushes onto a two way. **Even Optus** and I went left and everyone else went straight that went under a tunnel what I can only imagine would be the Western freeway. Of course optus and I had managed to go the wrong way and had to run back moving swiftly from FRB's to Tail end Charlie's. On-on we went under the freeway and right down Carinya St. At this point I was still not really keeping track of where we were running but that seems a good enough guest to me. I think we went down Caledonia through a bit of off-road then we joined what I guess was Chapel Hill road. Whatever it was we ran up and up and up then down then up and up and up a long, long hill. At the top we went right (Toot toot Tooooooot – on the hash horn) and we came to a RG. A 3 min wait for the tail enders and a quick song and we were off again. We went through some more bush, at this stage **Tinkerbelle** and a few others high tailed it back home. The FRB's were **Optus, Mu, JC, and pussy Galore** while I was about 20 meters behind blowing various bugle calls to ensure the pack knew which way to go.

Any way after a few more twists and turns, a few 2 ways and a CB, a 360 we ended bank at the tunnel we went through at the beginning, and it was back along the initial road and through the park back to the start. The run was good, well set and easy to follow. The hares had even

thoughtfully marked the stone step edges so that we could see them in the dark - those that has torches anyway.

Those hares were on top of their game, as they had their own beers available as the pack arrived, with many hashmen grabbing a cold one to quench a thirst. Only when opening it only to discover they then had to fork out \$3.00 for a non-hash beer.

The circle was called and the guilty started to pay – **Waste of Fucking time** was Iced for completing a marathon in 320 hours, when **Anchovy**, **piss flaps** and **Catgut** received a beer. **Miles O’Tool**, **JC** and **Anchovy** were iced as was myself for blowing secret codes on the hash horn, but **Catgut** was found guilty of driving 6,000 km to see Julia Gillard’s tits and even worse, taking his family. And for that he won SOTW. There were some long services runs, **Snappy Tom** once again gave us a dressing down and warned us to have a good time at the Hash ball or else. There was a naming with “**Hymen**” becoming financial and receiving a just name. At this point the Walking dead lead by **Mortein** arrived at the circle. The On-on was great with free

sausages, with plenty to go around, many hashmen devouring 3 and me myself and I polishing of 4.

Good run well done!!

Run: 8/10

On On: 7/10
