Run 2184: The 'Official' Brisbane Boxing Day Run

Hare: Scruffy

Venue: International Hotel, Spring Hill

It was a beautiful balmy Brisbane evening when about 20 hashers gathered at the International Hotel in Spring Hill for an after Christmas fat-burner run / walk. So keen to work on their inflated festive season bellies, **Snappy, Tinkerbell** and **Layup** arrived about 45 minutes before the start. However, the ever consistent **Royal Screw** pulled into the pub carpark just minutes before the start. Hare **Scruffy** commenced proceedings by explaining that Radar gave him tips on how to set a run by using a sun dial for timing and not to worry about planning the run just keep going until you're buggered etc. **Moretien** lead the walking pack with **Virgin, Boxa, Snappy**, and others in tow. **Tinkerbell** and **Bugs** headed the running pack which included **Miles O'Toole, (FU) MU**, and **Royal Screw** hot on their heels. The pack looped around the back streets of Spring Hill then headed into the old Windmill Observatory park on Wickham Terrace for the first re-group, only to be met by the front-running **Luftwaffer** and **Multiple Choice**. The running pack, in disbelief, then headed down Turbot Street, through some park areas and lanes in and around Astor Terrace to the second re-group, and again met by front-running **Luftwaffer** and **Multiple Choice**. The next stage of the run was into the back streets of Spring Hill to the next re-group outside the RACQ building in Water Street, and yet again caught up with front-runners **Luftwaffer** and **Multiple Choice**. The running pack sprinted the final leg home up to the Centenary Pool, then along Gregory Terrace and back to the International Hotel.

Hare GM Scruffy commenced the circle by nominating **Multiple Choice** as the proxy hare to receive the judgement of the Hare Fickled Finger of Fate, which received an overwhelming finger down from the circle for an icing. In the absence of Monk Brengun, back-up Monk **Von Layup** pronounced **Boxa** SOTW after he was sighted using his mut Roxy the Foxy to chat up some young woman on a previous run. After the circle the boys headed to the bar for a post-Christmas drink.
