

RUN: ORDINARY'S REVENGE – 31/01/2011

They shoot non descript hashmen and messengers don't they?

I am writing this report under duress. The background to this is that I made the mistake of exercising my right to freedom of speech. Apparently this is right enjoyed by those people in the real world but not by those who frequent the BH 3 twilight zone.

I expressed the view to V Diarrohea in his capacity as trail master that run reports were becoming too verbose and that the person who reads the reports to me was complaining of tired eyes.

I gave an example of a 2+ page run report that I believe was scripted by the person to whom I was addressing. I expected that the normal hash practice of complaints falling on deaf ears and being ignored would apply. However the trail master dispensed summary justice and directed me to do this run report.

Being a man of high principles and integrity, I would be betraying those values true to myself if I didn't adhere to my stated opinion that run reports were too long.

Now, back to the run report:

“The run was good”.

The hares surveying the pack prior to the run thru the valleys of Paddington.

Stand-in GM sending the pack on it's way

The energetic departure

The visitors

The circle
