

RUN REPORT :

Run 2257 – A Hell of a Run : Venue – North's Devils Football Club, Albert Bishop Park, Nundah

Ten runners headed off from North's Bashup Park on a very chilly Monday night. During the first kilometre the pack stayed huddled together for warmth. At the first FT and CB the pack the pack was still huddled together. That is when things went wrong (in a BIG way). There was a least one hundred 360's and not one single arrow from the trail masters to show the RIGHT way. Multiple Choice and Luftwaffe had no choice but to do all these trails to find the right way and collect all the stragglers left behind them. You would think that Handjob and Anchovies with all their experience of fifty years would know how to set a run without so many 360's (or are they getting DEMENTIA!!!!!!) By the time that Multiple Choice and Luftwaffe got back with all the stragglers, the circle was over so I can't comment on the circle but I was told that Turbo got Shit of the Week (for what, I don't know).

The Run Score is 2 out of 10.

The Food Score was 9 out of 10.

The Beer score was 10 out of 10.

On On

Multiple Choice.
