

Run 2270

Hares for this run were Multiple Choice and Luftwaffe. .

The site was the Sunnybank Sports Club.

The pack of 14 runners and remaining walkers of a big turnout headed off in a N E direction for a bit of pathway / semi bush and an early creek crossing down and up a steep bank - that would have pleased Push-up. The trail went generally north through Macgregor "brick veneer land" and made another crossing of Bulimba Creek. One arrow here, then none visible for a long distance caused a delay and the drop-out of 2 runners, (who knew where they were). A new trail marker was initiated around here by the Hares..... F R Farkin re-group (???)

,The trail was found to progress up a long hill for a re-group, down along the path beside the Pacific Hwy then turned westward for home.

.A good feature to use a common trail for walkers and to the finish at 7:04 for me.

A good quality run - well done Multiple!

The Monk was busy. Irish Joke Luftwaffe Monty Spermwhale Waste of Time and Royal Screw were featured. Royal Screw took the SOTW tee for his overactive libido.

Burgers and Chips were the popular choice for dinner
