

Brisbane Hash House Harriers Run No 2271
26th August 2013 Harry's Diner
Footy Finals Run (Joint Run with Northside Hash)
Catgut, Bugs and Flasher

First run back after a few weeks away and the wily **GM** lands me with the job of scribe, even handed me a paper and pencil. Maybe I should have accepted them as now I don't have a clue what happened a whole six days ago. I'll concentrate hard and see what shit comes out.

Well a fair pack had assembled at the car park at Harry's Diner. Late start to suit the front bums, to allow for make-up applications.

GM, Divot called the pack to order and called on the hares to spout out their usual promises, good trail, no hills etc. All the usual crap, just like the pollies we are sick of listening to.

Good to see the return of **Desperate, Donkey** and **Monty**.

The trail took us across Newmarket Road, up the back of some business premises and on to Oakwal Lane and Cox Road. **Best & Less & Pussy Galore** were struggling to keep up with usual FRT's **Bugs, Royal Screw, Tinkerbelle** and **Even Optus** as the pack wound around the hills of Wilston, ex-Premier Beattie's one time stomping ground. On up Sylvester Street towards Eildon Hills Reserve and over the dreaded pipes to a CB. This caused **Royal Screw** some consternation as he was half way across the pipe when **Pussy Galore** turned to come back, due to the CB. They danced about like a couple of fairies until both were facing back to the start of the pipe. Cunning **Even Optus** took full advantage of their dilemma and shot off back down the hill, with bugs and a few others in close pursuit. **Irish Joke** followed at his usual leisurely pace, all the time chatting about saving the planet and how eco friendly he was, apart from the fact that he has his own personal coal fired power station just to keep Mrs Bucket ticking over at a comfortable temperature.

The pack was in disarray due to a dodgy set of markings in Lamont Road, at Abuklea Street. A gaggle of walkers, including **Verbal D, Jackoff** and **Mortein** was encountered near here and then **Best & Less** reconnected with the trail near Wilston Station.

On over the footbridge, across Newmarket Road again and off towards the playing fields near the Enogerra Creek Bikeway. Apparently there was a regroup on one of these streets but I inadvertently missed it and carried on along the bikeway accompanied by one of the Northside runners. From here it was on up Noble street and only another 100 metres or so, round the corner at Newmarket Road, past **Hoof** and on to home.

The majority of runners took another twenty minutes or so to finish the run, probably due to the fact that they followed the trail, a truly commendable gesture.

Early starters **Craft** and **Dimprick** arrived just in time for drinks, after a grueling 14k walk. (Also a fucking truly commendable gesture)

Luftwaffe lead the circle with a rendering of the **Brisbane Hash Anthem**.

Religious Adviser, **Fucknut**, was called upon to administer punishment to a few miscreants including **Snappy, Irish Joke, Grewsome** and **Chardarse**

The added numbers of Northside Hash made for a good change to our normal Monday night run.

Run	9/10
Circle	8/10
Food	Probably good, as Monty was barging his way past lesser mortals to get to the front of the queue.
SOTW	Snappy

OnOn
Grewsome
