

Run Report Run 2274.....Committee Run.....Chardons Corner

Hares ... **Forex and Ron the Bomb**

What a bunch of pathetic wimps ! With the weather outlook cloudy and light showers , a smaller than usual pack turned up . Not even the promise of some free piss and food and the anticipation of Fem-Fresh wafting on the air and a Southside venue could entice some from the comforts of home . We welcomed two visitors , VIAGRA from Kuching and TOWKAY ex Kuching .

Age induced lack of memory precludes me from describing the route of the run in any detail but suffice to say we left the carpark went left then right followed by some more lefts and rights , a couple of 360s and CBs . Not far into the run , the Magnificent Dozen reduced to Eleven when TINKERBELLE went lame and headed for home . CATGUT did his usual from a check and tried to anticipate the trail only to come unstuck but meet up with the pack later on. FRTs BEST and LESS , OPTUS and PUSSY (the running variety not the licking type) kept the pace up with TURBO , SCRUFFY and PUSHUP holding the middle together . Out of the murk appeared TINKERBELLE , lost his way trying to find home so elected for the security of his mates , after all it was dark and scary out there .

Up and down some hills , some more lefts and rights and we were back at the carpark and directed to the bar for the on-on . Shock , Horror , the special guests had their tops on !! FOREX greeted the ice for organising a venue with windows hence the overdressed helpers . Unanimously voted SOTW . As the night wore on it appeared he might have done us a favour , especially the rear view of one of them . The bar staff , especially the females , were totally amused by the antics of the icings especially MEATIHORE wearing his Grandfather's version of jocks . Piles of pizzas followed and thanks to the wimps all finished stuffed to the eyeballs , Seagulls eat your hearts out .

Run Score.....8

On OnTake your pick , depending on whether your choice is what you want or what you don't know/see won't hurt you.
