

22 runners turned out for this venue tucked away from but hidden from Old Cleveland Bay Road. Local historians among you will know that Camp Hill was so named by being the site of the first day's camp out of Brisbane by bullock dray headed for Cleveland.

I reminded myself of this after struggling up from close to sea level beside the creek, up to Buena Vista Drive – an elevation change of about 120 metres. Once up there, there were still nasty undulations on the way back down. Hares VD & LAP mentioned that it was “just a short run”. Yeah, thanks for that Boys!

Just 5 runners plus a junior by Tinkerbell complemented the 17 walkers. The walkers and runners trails intersected here and there – rather tempting to abandon one and continue on the other on this muggy night.

The on home trail led along a level path beside the creek / duck ponds to run in to a welcome cold beer. The hares had a selection of beers to go with the bbq snags and bread.

Round the circle, a few were dragged out to have their misbehaviours aired, however the case against Bren Gun was held over to allow the Hash Monk time to complete his case preparations.

Twin Tub and Anchovy were granted a down-down to mark 1400 and 950 runs respectively.

Run 7 / 10 a bit short!

Food 7 / 10 the usual snags.
